

BRE Open Innovation Hub

International experts in building science and research and leaders in the development of modern construction methods, BRE Group has commercial space, ideal for incubation and start-ups, available on its Watford campus.

In 2020, more capacity will be created with a new Open Innovation Hub. Offering 3,000 sq.m of contemporary, flexible office and research space at the heart of the campus at BRE headquarters.

It will form a national and international centre for research and innovation in emerging sectors such as digital, connected and smart built environment.

This high quality incubation and SME acceleration space will facilitate collaboration between the research base, large firms and SMEs.

The Open Innovation Hub will be a flagship for BRE and Hertfordshire IQ, showcasing quality, innovation and performance in the built environment.

Just 30 minutes from London on the M1/M25, with a highly skilled local workforce, plus cutting edge research and innovation networks, Hertfordshire IQ is a place for innovation to thrive.
